SUMMARY

Engineer with a B.S. in Electrical Engineering, full stack web development certification, and 4+ years of experience working with a team. Looking to apply analytical skills and close attention to detail in a full-time Developer role.

RELEVANT EXPERIENCE

Nifco America – *Customer Quality Engineer* 2021 - Present

Handling part quality complaints from a wide range of Nifco's customers. Working with cross-functional teams to establish root causes and implement permanent corrective actions.

Nifco America – *Quality Engineering Intern* 2019

Built data analytics tools that improved data usage and clarity to increase customer responsiveness. Included automated reports and spreadsheets that are used daily across the department.

Stoneridge, Inc. – *Engineering Intern (multiple)* 2017, 2018

Tracked and analyzed production scrap on two high volume lines. Designed various machine improvements, conducted tests, and monitored machine performance.

EDUCATION

7/2022 Coding Boot Camp

The Ohio State University

4/2021 Bachelor of Science, Electrical Engineering

Mount Vernon Nazarene University

5/2017 Associate of Applied Science, Industrial Technology

North Central State College

OTHER EXPERIENCE

Mount Vernon Nazarene University – *Resident Assistant* 2018–2021

Worked with a team to enforce campus policies, plan student events, and foster a healthy community. Oversaw a dorm/apartment of students who reported to me whenever there were issues.

ACTIVITIES

Honors Program, 2017–2020

Small group leader, 2018–2021
