SUMMARY

Design Engineer with a B.S. in Electrical Engineering, full stack web development certification, and 5+ years of experience working with a team. Looking to apply analytical skills and close attention to detail in a fulltime Developer role.

RELEVANT EXPERIENCE

Design Development Engineer

NIFCO AMERICA

Current

Ensure that every part meets the design intent, both aesthetically and functionally. Create part drawings, lead design changes, and improve part quality.

Customer Quality Engineer

NIFCO AMERICA

2021-2022

Handled part quality complaints from a wide range of customers. Worked with cross-functional teams to establish root causes and implement permanent corrective actions.

EDUCATION

Certification

Full Stack Web Development

2022

The Ohio State University

Bachelor of Science

Electrical Engineering

2021

Mount Vernon Nazarene University

Associate of Applied Science

Industrial Technology

2017

North Central State College

OTHER EXPERIENCE

Resident Assistant

MOUNT VERNON NAZARENE UNIVERSITY

2018-2021

Worked with a team to enforce campus policies, plan student events, and foster a healthy community. Oversaw a dorm/apartment of students, serving as their main point of contact for questions and concerns.

ACTIVITIES

Honors Program	2017-2020
Small group leader	2018-2021
Sustainability Club leader	2020-2021
Student mentor	2019
